

OUR PRINCIPALS

Miriam Lev-On, Ph.D. -- Dr. Lev-On has over 25 years of professional experience in the aerospace, power and the oil & gas industries, holding positions dealing with global corporate environmental strategies and policies. Her diverse background makes her an expert in areas such as environmental management & compliance strategies, air quality and environmental impact assessments, technical data analysis, and environmental technology introduction. She advises executive management and works with environmental regulators, business organizations, United Nations agencies and programs as well as academic and research institutions.

Dr. Lev-On served as chair of several major global industry committees at the International Petroleum Industry Environmental Conservation Association (IPIECA) and the American Petroleum Institute (API). She was a member of the US EPA Clean Air Act Advisory Committee and participated in several regulatory negotiations. Dr. Lev-On possesses a unique blend of technical expertise and policy acumen bridging complex environmental issues, innovative technologies, and the policies needed for implementation.

Perry P. Lev-On, M.Sc. -- Mr. Lev-On has over 25 years of "hands-on" experience in the field of Organizational Development. He consulted to major organizations, both in the public and the private sector, to educational institutions and to governmental agencies, in the US and abroad, on issues relating to efficiency; time management; team development; conflict resolution and more. He also conducted many seminars and workshops to management personnel and facilitated stakeholders' negotiations.

Mr. Lev-On holds several academic degrees in Business Administration, Industrial Psychology and Educational Administration and taught at several academic institutions in the US and abroad.
